

## B-TRAXIM 2C Mn - 220

### Manganese chelate of glycine, hydrate

<b>Code</b>	M60-5030	
<b>Description</b>	Manganese chelate of glycine, hydrate in micro-crystalline particle size.	
<b>Physical properties</b>	B-TRAXIM 2C Mn - 220 appearance : white to pale pink dustless free-flowing powder.	
<b>Standard analysis</b>	Manganese	≥ 22%
<b>Legislation</b>	In conformity with the European feed legislations: General Food Law (EC 178/2002), Feed Hygiene Regulation (EC 183/2005) and Feed Additive Regulation (1831/2003) and their amendments. In conformity in regard to undesirable substances (e.g. heavy metals and dioxins) according to EU directive 2002/32 and its amendments. Complies with EU regulation in regards to genetically modified organisms (EU regulations on GMOs: 1829/2003 and 1830/2003 and their amendments) and is not produced from ingredients from animal-derived substances.	
<b>Stability</b>	Maximum 60 months when stored in original packaging and kept in cool dry place. Possible variations in color are independent of its properties.	
<b>Uses and benefits</b>	The homogeneous particle size allows an optimum dispersion and insures a constant and regular level of metals in the ration.	
<b>Application method</b>	For animal nutrition, into feed via a premixture.	
<b>Packaging</b>	25 kg multi-layered paper and PE plastic bags.	
<b>Application rates</b>	<b>EU Max (mg/kg)</b>	<b>mg/kg</b>
	Fish	455
	All other species	682
	Please take into consideration all mineral sources present and do check with local legislation.	
	<ul style="list-style-type: none"> <li>• EU Max (mg/kg): maximum content of METAL mg/kg according to EU-regulation.</li> <li>• mg/kg: content of PRODUCT in mg/kg based on EU Max.</li> </ul>	
	Doses are displayed in complete feed with a moisture content of 12%.	
<b>Safety</b>	For safety information please refer to the product safety datasheet.
