

GLOBALMAX B700

Calcium Butyrate-Based Supplement

COMPLEMENTARY FEED for Swine, Calves, Poultry and Aquaculture.

» PRODUCT DESCRIPTION

Globalmax B700 is a coated, highly concentrated calcium butyrate feed supplement. It is designed to ensure and maximize the beneficial effects of butyric acid in the intestine of monogastric animals, which leads to optimal gut health and performance.

Globalmax B700 is composed of (11.1.11) Calcium salts of organic acids (Calcium butyrate) and carriers.

» PRODUCT FORM

Appearance: Fine granulate, Particle size: <1.5 mm

Color: White – beige color

» INDICATIONS AND BENEFITS

- Stimulates differentiation and growth of intestinal wall (energy source for the villi)
- Helps to maintain the natural balance of the intestinal flora
- Positive effect on zootechnical and health performances (weight gain, FCR, laying rate...)
- Organic source of calcium
- Easy in mixing and utilization

» RECOMMENDED APPLICATION

» Swine : 0.5 – 3 kg/ton

Prewaning : 2 - 3 kg/ton

Prestarter (7-12 kg) : 1 - 2 kg/ton

Starter (12-20 kg): 0.75 - 1.5 kg/ton

Grower : 0.75 – 1 kg/ton

Finisher : 0.5 – 1 kg/ton

Sows : 1 - 2 kg/ton

For extra health effect: 1 - 2 kg/ton

» Calves: 1 – 3 kg/ton

Milk replacer: 1 – 3 kg/ton

Solid feed/Starter : 1.5 – 2 kg/ton

» Poultry : 0.15-1.00 kg/ton

Broilers : 0.15-1 kg/ton

Layers : 0.2 – 1 kg/ton

Breeders : 0.2 – 1 kg/ton

» Aquaculture : 0.5 – 3 kg/ton

Fish : 0.5 – 3 kg/ton

Shrimp : 1 – 3 kg/ton

For optimal dosage of the product, please contact our technical and analytical service team.

» PACKAGING

Plastic bags (polypropylene) of 25 kg or 20 kg.

» SHELF LIFE AND STORAGE CONDITION

Shelf life: 24 months after production date when correct storage conditions are applied.

Store in original, closed package in a dry place at room temperature. Keep out of direct sunlight.

For manipulation, please refer to the MSDS.
