

HERBAL ACID CODE: (H70-HA/0086)

Product identification: Veterinary registration No. aPL1002029p

Description: **Acidifier-preservative. Complimentary liquid feed mixture with strong antibacterial effect used to acidify and complement feed nutrients for all types animals especially for slaughter turkeys and broilers.**

Composition: of Lactic acid E270 – 30%, Phosphoric acid E338 – 20%, formic acid E236 – 15%, Acetic acid E260 – 5%, Citric acid E330 – 1%, malic acid E296 – 1%, Xtract anabasis – 0,5%, water

Metabolic energy for pigs: 5,66 MJ,
Net metabolic energy for pigs: 4,07 MJ,
Metabolic energy for poultry - 5,17 MJ

Contents of general phosphorus in 1 -kg of product 47g

Appearance: Liquid

Physical properties: Color: Light -yellow to beige
Smell: Characteristic pungent smell

Application : May be used for all types of animals especially for slaughter turkeys and broilers

Dosage: **on 1000 l of drinking water**
prophylactic and after treatment antibiotics **0,5-2 kg**
In diarrhoeic states **2,5-6 kg**

Packaging: Multilayer **CANISTER:(3H1/Y)_20kg. IBC(31/HA1/Y)_1000 Kg.**
An empty packaging is recyclable.

Precautions: Concentrated preparation. Do not use directly for feeding purpose. Use exclusively for feed production. Store in a dry and cool place. Avoid contact with eyes and ears. In case of contact, rinse immediately with plenty of water and seek medical help. Wear protective gloves.

Stability: Max 24 months if stored in original packaging in cool and dry place.
